Scottish Golf seeks two Non-Executive Directors

We are looking to fill two non-executive director roles on the Board of Scottish Golf Limited.

All Board roles are voluntary positions, non-remunerated other than reimbursement of reasonable expenses and more details are provided at the link below.

We are looking for non-executive directors with particular strengths in External Communications and/or Golf Tourism at a strategic level. Our successful candidates will be forward thinking, self-motivated, embrace technology and be highly driven to make a positive and meaningful contribution to the continued development of Scottish Golf. Previous experience of operating at Board level is desirable, though not essential.

If you have the appetite, passion and experience to be part of an exciting future for golf in Scotland, putting “participation for all” at the heart of what we are delivering across communities, then please get in touch.

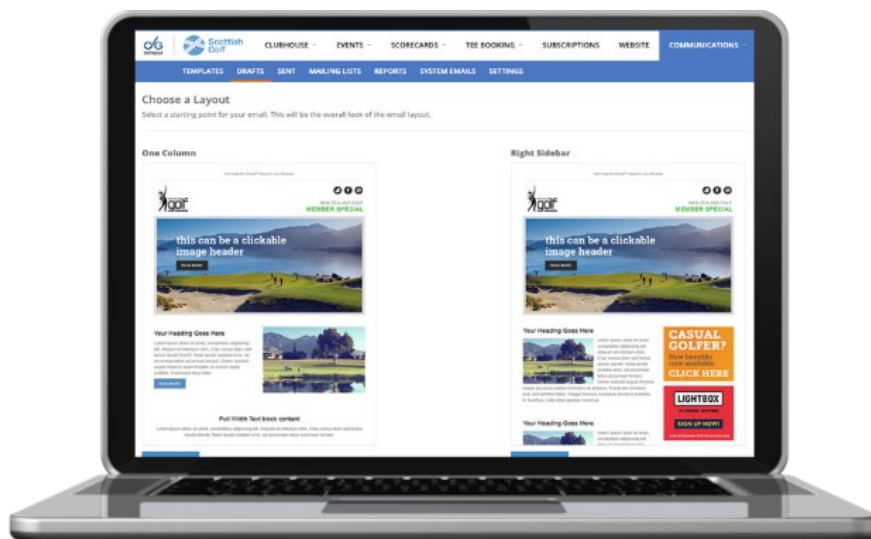

How to Apply:

Please read the [attached role descriptor](#) then follow the link to the Scottish Golf Careers page for application details.

The closing date for applications is **22nd November 2022 at 12 noon.**

System Roadshows

Thank you to everyone who came to our DotGolf roadshows this past fortnight. We saw close to 300 golf club representatives, and feedback has been overwhelmingly positive with many new clubs expressing an interest in the platform.

We are putting together some additional information for all attendees, and will be in touch with all current users of VMS as well as those new accounts who expressed an interest, with next steps.

For those who were unable to attend, if you would like to speak to one of our Customer Account Managers and learn more, please email using the link below.
