

## Scottish Golf transition VMS tech provider to DotGolf

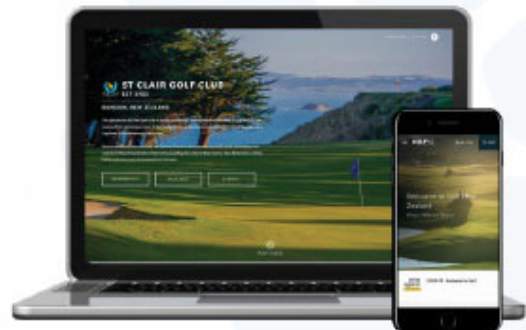

Scottish Golf is announcing today an exciting new tech partnership with DotGolf, which will herald a new era in venue management for Scotland's golf clubs.

DotGolf was established 25 years ago. It provides feature-rich, easy-to-use club management systems to all of New Zealand's 280 golf clubs. It also provides tech solutions to England Golf, Wales Golf and Golf Ireland (app and websites).

The DotGolf system offers enhanced user experience features, which have been requested by clubs over the last 18 months, including:

- Ease-of-use / great user experience
- Reporting tools and analytics
- Membership management
- Integrated accounting
- Slick and appealing websites
- Mass communications tools
- Option to integrate ePOS system and financial packages

dotgolf

Scottish Golf is the first governing body outside New Zealand to adopt the full suite of DotGolf club management software. This means we - and you - will be at the forefront of driving developments for the future.

DotGolf becomes your new VMS provider. Scottish Golf is already working on building up your individual instances, and over the next few weeks we will transition you over.

## DEMONSTRATIONS and Q&As

Scottish Golf will be running a series of roadshows in October 2022. You will experience the DotGolf system first hand, ask questions and talk to our customer account managers.
